**CLOSINGCORP NAMES MARIA SEDLACK
NATIONAL SALES EXECUTIVE FOR DATA SOLUTIONS**

SAN DIEGO, March 5, 2020 – ClosingCorp, a leading provider of residential real estate closing cost data and technology for the mortgage and real estate services industries, today announced that Maria Sedlack has joined the company as National Sales Executive for Data Solutions.

In this role, Maria will be responsible for advising capital markets and fintech clients on how to use ClosingCorp data to develop new risk and securitization solutions. Prior to joining ClosingCorp, Maria was a senior sales executive in the Data & Analytics division of Black Knight Inc. where she advised and delivered predictive analytics and data solutions to capital market clients. Maria spent a majority of her career with Fitch Ratings, where she held a series of structured finance-related positions, including heading the agency’s Structured Finance Business Development team that serves RMBS and CMBS investors.

“Traditional MBS, whole loan portfolio risk and pricing models consider mortgage interest rates, credit scores, debt-to-income and loan to value ratios as key variables driving borrower behavior. Based on our analysis, these variables don’t tell the entire story,” said Dori Daganhardt, chief data officer of ClosingCorp. “Maria’s expertise in the capital markets field will help us show investors how they can better understand the point at which a borrower is incentivized to conduct a transaction by understanding the closing costs the borrower faces. We are pleased to welcome Maria to the ClosingCorp team.”
