

Production Release Notes July 21, 2021:

Order Management Updates:

Fixed Issues:

OM-756	America's Moneyline, Better, and PennyMac – Identify spacing in XML, Fee Mapping – PROD QA only Fixed an issue with Log Viewer not identifying the exact spacing that is sent in the XML, making it difficult to map the provider's fees during onboarding. While this is a global issue internal to ClosingCorp, it affects the provider's go-live date.
OM-771	Homepoint – Appraisal MISMO, Code Fix, Construction Method Type - PROD Fixed an issue with the code not reading the Construction Method Type, and therefore not sending it to the client.
OM-890	East West Bank – Purchase Agreement, in CCOM Locally, not sending to Provider - PROD Fixed an issue with ValuTrust not receiving the Purchase Agreement when they receive the order request.
OM-953	PennyMac – Daily data dump report March 6 to 16 request – PROD Fixed an issue with PennyMac missing data between March 6, 2021, and March 16, 2021.
OM-1268	PennyMac – Assignment Override role not working – PROD Fixed an issue with PennyMac users that have the Assignment Override role present not being able to reassign an AMC when the appraisal is allocated but the order has not yet been placed.
OM-1320	Multiple Clients – Task Processor logging, Buffer cannot be null Fixed an issue with a Task Processor Error being returned on multiple clients on the Upload to Encompass task for Title orders.
OM-1322	UBS Bank – Not storing DocID from the Post XML Response – SIT Fixed an issue with FNC/CMS Receiving an invalid doc ID when returning a document for the appraisal review process.

OM-1324	ClosingCorp – Change Client Name from WVM to ClosingCorp – PROD Where WVM Order Management was appearing, it's been updated to match ClosingCorp.
OM-1391	Caliber – Uploaded Docs Sent Back to Lender – PROD and SIT Fixed an issue with Caliber Home Loans, Inc. sending documents to Order Management, which then sends them back to Caliber. Sometimes this is happening multiple times.
OM-1427	INTERNAL – access information on second order Fixed an issue with a second appraisal order being created. The second order appeared with the borrower's checkbox automatically checked, which wiped out the information that was entered manually on the first order.
OM-1501	Remediate browser compatibility issue on Encompass Title screens Fixed an issue with a PennyMac script error on the Title Signing Schedule screen.
OM-740	Geneva Financial – Signing Scheduling missing phone numbers – PROD Fixed an issue Geneva Financial was experiencing with Order Management, where the Borrower Cell and Work phone numbers were not appearing automatically when scheduling the signing. It should have pulled from the Order Detail screen, but it was blank and grayed out, meaning the user could not enter the phone numbers manually.
OM-1539	Better Mortgage – Stopped sending Branch info to standard providers – SIT, PROD Fixed an issue with Branch information not being sent to standard providers.
