

ClosingCorp Fees Product Release

November 11, 2021

Enhancements

Send parcel number in the GetProperty Tax response

Enhanced functionality so SmartFees users who consume the CoreLogic PTE service can see the parcel number associated with the mortgage in the *GetProperty Tax* response.

Sample XML: `<TaxLine TaxType="CountyTax" FrequencyType="Semi Annual" NextReleaseDate="09/26/2021" AnnualCurrentTax="42676.18" ServiceProviderId="8720b9f4-c256-4e94-9a32-9b76eb22aa53" ParcelIdentifier="4226016027">`

Resolved Issues

Fee quote generating without required questions answered

Fixed an issue with the required "What is the taxable value transferred, if any?" question going unanswered when users launched ClosingCorp Fees from Empower, using Create_GFE, but users were still able to create a Transaction Detail Report without answering that question.

California Building Homes and Jobs Act fee duplication when mapped

Fixed an issue with the Building Homes and Jobs Act fee duplicating in the HUD summary section of QuickGFE and GetGFEData response when the fee was itemized.

Duplicated PTE Installment Dates

Fixed an issue with the installment dates showing as the same day twice.

Update GFE error when changing property type in Iowa

Fixed an issue with the UpdateGFE returning an error when changing the property type in Iowa.
