3 Order Management Updates

Enhancement Overview:

Jira ID	Enhancement Name	Order Management Website & Application	Encompass	Integration API XML	Other
OM-4765	Update Active Title Order List View to Ensure Each Order Appears Only Once	X			
OM-5170	Add New Configuration to Force Documents Download	X			
OM 5697	Disable Autofill Functionality – Web UI	X			

Fixed Issues: Details

OM-4765	<p>Update Active Title Order List View to Ensure Each Order Appears Only Once Updated the Title Order list view on the Active tab to ensure that an order appears only once.</p>
OM-5170	<p>Add New Configuration to Force Documents Download Chrome has made security updates. As a result, functionality has been updated to allow the lender to use a new Force Documents Download configuration which will permit the user to view documents in OM via document download.</p>
OM 5697	<p>Disable Autofill Functionality – Web UI Updating to disable autofill functionality on the Title Order web screen to ensure consistent user experience is achieved when manually populating title order fields.</p>
