

# Preliminary Product Release Notes April 26, 2023

## 6 Order Management Updates

### Enhancement Overview:

Jira ID	Enhancement Name	Order Management Website & Application	Encompass	Integration API XML	Other
OM-4960	New Bundled Title/Closing Products – Admin Allocation	X			
OM-4961	New Bundled Title/Closing Products - Allocation	X		X	
OM-5250	Add New Title Doc Type ‘Loan Modification Agreement’	X		X	
OM-5535	Lien Position Type – Admin Allocation	X			
OM-5552	Lien Position Type - Allocation	X		X	
OM-5272	Update Order Cancel Functionality on the Title Order Screen	X			

### 5 Enhancements - Detail:

OM-4960 Epic: OM-1758	<b>New Combined Title/Closing Products – Admin Allocation</b> This feature adds the global combined product types to the Allocation State Table functionality so Lenders can be configured for allocation logic based on combined Title and Closing products.
OM-4961 Epic: OM-1758	<b>New Combined Title/Closing Products – Allocation</b> This feature creates the ability for Lenders to route Title and/or Closing orders based on allocation configurations.
OM-5250	<b>Add New Title Doc Type ‘Loan Modification Agreement’</b> This feature creates a new document type ‘Loan Modification Agreement,’ allowing the Lender to receive this document from the Title Provider.
OM-5535 Epic: OM-4861	<b>Lien Position Type – Admin Allocation</b> This feature adds <b>Lien Position Type</b> to the Allocation State Table so Lenders can be configured for allocation logic based on <b>Lien Position Type</b> .
OM-5552 Epic: OM-4861	<b>Lien Position Type – Allocation</b> This feature creates the ability for Lenders to route Title and/or Closing orders to Providers based on <b>Lien Position Type</b> allocation configurations.

### 1 Fixed Issue:

OM-5272	<b>Update Order Cancel Functionality on the Title Order Screen</b> Updating functionality so that the Title Order always updates to the <b>Title Cancelled</b> status when the order cancellation is initiated by the Lender from the <b>Title Order</b> screen.
