

Product Release Notes May 3, 2023 Final

4 Order Management Updates

Enhancement Overview:

Jira ID	Enhancement Name	Order Management Website & Application	Encompass	Integration API XML	Other
OM-5250	Add New Title Doc Type 'Loan Modification Agreement'	X		X	
OM-5535	Lien Position Type – Admin Allocation	X			
OM-5552	Lien Position Type - Allocation	X		X	
OM-5272	Update Order Cancel Functionality on the Title Order Screen	X			

3 Enhancements - Detail:

OM-5250	<p>Add New Title Doc Type 'Loan Modification Agreement'</p> <p>This feature creates a new document type 'Loan Modification Agreement,' allowing the Lender to receive this document from the Title Provider.</p>
OM-5535 Epic: OM-4861	<p>Lien Position Type – Admin Allocation</p> <p>This feature adds Lien Position Type to the Allocation State Table so Lenders can be configured for allocation logic based on Lien Position Type.</p>
OM-5552 Epic: OM-4861	<p>Lien Position Type – Allocation</p> <p>This feature creates the ability for Lenders to route Title and/or Closing orders to Providers based on Lien Position Type allocation configurations.</p>

1 Fixed Issue:

OM-5272	<p>Update Order Cancel Functionality on the Title Order Screen</p> <p>Updating functionality so that the Title Order always updates to the Title Cancelled status when the order cancellation is initiated by the Lender from the Title Order screen.</p>
