

Order Management

SIT Release Notes 11/06/2023

5 Updates

Enhancement Overview:

Jira ID	Enhancement Name	Order Management Website & Application	Encompass	Integration API XML	Other
OM-7907	Update Title Information Display on Order Status Screen	X			
OM-8342	Update Pricing Fees Question Functionality	X			
OM-8610	Update Global Title Completion Trigger	X			
OM-8641	Update Batch Cancellation Message	X			
OM-7439	Update Order Functionality to Send Only the Fields Related to the Product Order	X			

4 Fixed Issues:

OM-7907	Update Title Information Display on Order Status Screen This fix updates functionality for Detailed Title so OM does not populate the Title Product field in the Title Information section of the Order Status screen before the Title order is placed.
OM-8342	Update Pricing Fees Question Functionality Updating functionality so when a user enters a zip code that requires the fees questions to populate, the applicable questions will appear.
OM-8610	Update Global Title Completion Trigger Updating functionality so order completion is triggered as configured in the Title/Closing tab within Client Detail.
OM-8641	Update Batch Cancellation Message Updating functionality so the batch cancellation message properly displays.

1 Encompass Only Updates:

OM-7439	Update Order Functionality to Send Only the Fields Related to the Product Order Updating functionality so the Title information is no longer sent to Encompass when an Appraisal order is placed, and the Appraisal information is no longer sent when a Title order is placed.
